Post Operative Medications

All post operative medications will be electronically sent 1-2 days prior to your procedure to the pharmacy verified at the time of scheduling surgery. If you would like to change your pharmacy, please let our office know as soon as possible to prevent your post operative medications being sent to the wrong location. Please call our office at 312-432-2880 for any medication refill requests and allow 48 hours for refills to be completed.

Surgical Planning Contact Information

Medical Clearance Rush- Affiliated Locations

*****must be 10-30 days from surgery date***

Rush Center for Preoperative Care
1725 W. Harrison Street, Suite 155
Chicago, IL 60612
p: 312-942-4300

Rush Oak Brook Internal Medicine
2011 York Road, 2nd Floor
Oak Brook, IL 60523
p: 630-724-1300, option 1

- What to bring:
 - Insurance card, photo ID, list of current medications
 - Copies of any recent blood work or EKG
 - Specialist clearance letter with associated testing results, if applicable
- If new to Rush University Medical Center, call pre-registration prior to your appointment to register your insurance: 312-942-5460

Medical Clearance- Your Primary Care Physician

*****must be 10-30 days from surgery date***

If you go to your Primary Care Physician for your pre-operative clearance, you must remind them to Fax your History and Physical examination document, lab work, and ECG tracing to our office at **708-409-5179**. We will not have access to their records, and we need to provide these documents to the surgery center/hospital prior to your procedure.

MRSA Testing

*****Elmhurst Hospital ONLY***

- If you are having surgery at Elmhurst Hospital, the hospital will contact you a few days before surgery to schedule.

 - D-dimer
 - MRSA PCR screen

Anesthesia consult

Dx: Preop testing

Grant Garrigues, M.D.

Fax results to: 708-409-5179 no later than 7 days from surgery

Cardiac Clearance Request

Patient Name: _____ DOB: _____

Diagnosis: _____

Procedure: _____

Surgery Date: _____

Dear Doctor,

The above patient is scheduled for surgery with our office.

We kindly ask that you provide cardiac clearance including:

- **Cardiac history**
- **Statement of clearance** including signature with date and time.
- **Anticoagulation recommendations**—Note that even ASA 81 mg can lead to increased intraoperative and postoperative bleeding. Thus, we prefer no anticoagulation during surgery unless there is a cardiac contraindication. Please provide recommendations regarding *when to stop anticoagulants* before surgery, any *bridging requirements*, & *when to resume prescribed anticoagulation medication postoperatively*.

Patient will have routine pre-operative medical clearance with an internist including: H&P, CBC, CMP, UA and EKG

Should the patient require any additional testing, please complete and include with your note.

We appreciate your willingness to participate in the care of this patient.

Sincerely,

 Grant Garrigues, M.D.

Fax results to: 708-409-5179 no later than 7 days from surgery
